Surface Mounted Prebuilt Extrusions Installation Instructions

Warnings and Safety

- Please verify the contents of the package!
- Please read instructions before starting the installation.
- Make sure the power is off before installing or modifying the system.
- Call Tivoli LLC tech support with any questions.
- This product is designed to work with listed Class 2, 24V DC transformers only. Use of any other power source will cause damage, shorten the life of the fixture, and will void the warranty.
- Consult any local and national codes for installation.
- Follow basic safety precautions when dealing with any luminaire application to reduce the risk of fire, electrical shock, and/or personal injuries. This lighting system should be installed by a certified professional.

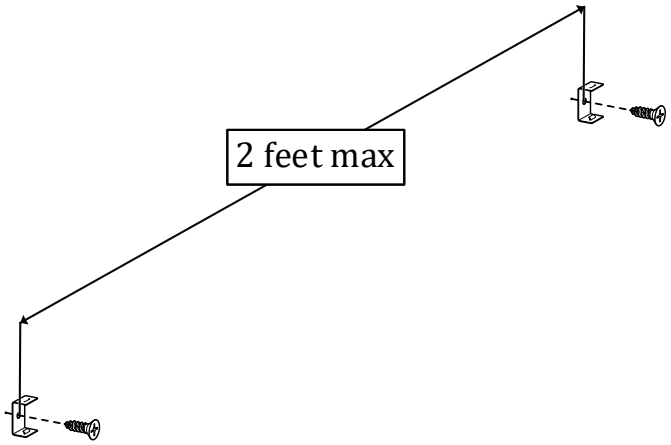

- **Do not** use this product for other than its intended use.
- **Do not** install this lighting system where the exposed bare contacts can be shorted or contact any conductive material to reduce the risk of fire and burns.
- **Do not** use any luminaire if damaged, such as a broken globe, loose connections, or frayed wire insulation. Inspect periodically.
- **Do not** secure any luminaire with staples, nails or like means that might damage the wire insulation.
- **Do not** cover lamps with cloth, paper or any material that is not part of the product.

Surface Mounted Prebuilt Extrusions Installation Instructions

Installation Instructions

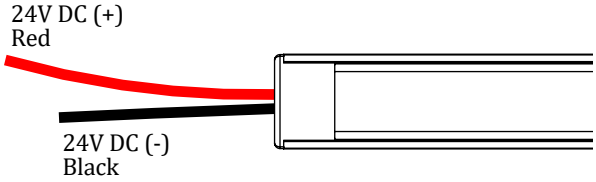

1. Attach the mounting brackets to the mounting surface. Mounting brackets should be spaced a maximum of 2 feet between each other.

2. Attach the fixture to the mounting brackets. The fixture should snap into each mounting bracket.

3. Connect lead wire to power supply.
   NOTE: There are many possible options for powering the light engine. The following wiring diagram is for reference only. See the specification sheet and related power supply specification sheets for more information and detailed wiring instructions.
